

**Church Building Project of Makassar Grace Bible Church**  
**by. Maruli Marpaung**

Greetings in the Precious name of Our Lord Jesus Christ!!!

“For as the body is one, and hath many members, and all the members of that one body, being many, are one body: so also is Christ.” (I Corinthians 1:12)

First of all we should give thanks to Our God in Jesus Christ that He has blessed us in our life and ministry. God has equipped us as a member of The Body of Christ, everyone of us is special before Him, therefore God has put us in His ministry according to Gift that has been entrusted to us.

This month is the eleventh Month My wife and I had been in Makassar, we learned manythings about the Culture, Habits, etc here. so far we have done some evangelistic meetings, two among them were Crusade ( Last December) and Grace Bible

Camp ( Last February 13-15 in Malino). We thank to The Lord that through these evangelistic meetings, Now we already have 23 Young People that have committed in our ministry. They elected the officers and we pray that Youth Ministry in Makassar will be used to proclaim the Gospel of God to the losts.

Actually there are other young people that have interested to our mission, and also some Parents, but the problem is that they are doubt when they look at our church building phisically. It's sad to say that there was the time, when we had Sunday morning service, It was hard rain and water entered to the room.

Therefore Brethren, through this letter we need your prayer and if possible your participation to join in our plan that This coming March 2011, we plan to continue to build a simple building to make our church is comfortable for the members and the new

comers that we will share the gospel. This project needs approximately \$ 3500 ( Three thousands Five hundreds Dollars), We also attach the picture of our Building now and the future building that we plan.

Finally we would thank for your attention and we will look forward to your response. And let the Name of God will be glorified in this project. Those who has burden to join in this project may contact to our Headquater office in Jakarta or through my email [agusmarpaung1@hotmail.com](mailto:agusmarpaung1@hotmail.com) , cell number +6281399973654.

In His Service
