

"I estimate that the number of Grace TCM believers in the Philippines reaches 25,000."

—Pastor Jun Cadelina, TCM-Philippines National Director

CAMBODIA ≈ Give thanks that **Jude & Cherry Honculada** have finally arrived in Cambodia after a year's delay due to Covid. They are living with

Teammates, **James & Agape Bermejo** while looking for housing of their own. Their first year will be spent in intensive language study. Ask the Lord to give them abiding love for the Khmer people and the ability to communicate fluently with them in their own language.

Team Cambodia and the Cambodia Grace Gospel Church (CGGC) board are planning an orientation and team building retreat this month. Pray for solid bonding experiences and shared vision.

Julia Liles is engaged to be married to Chetra Hong! Chetra is a member of the City Central Church and recently completed a pastoral mentorship program led by James Bermejo. Ask the Lord to guide Julia and Chetra as they plan a spring wedding in England, followed by a reception in Cambodia and several months of further Bible/theology and mission training in the Philippines, before rejoining Team Cambodia.

EAST TIMOR ≈ Shout for joy that the **TCM Association** was granted official NGO (non-profit org) status by the national government! This is the culmination of 3 years of tedious work, multiple visits to government offices and the Lord's intervention! Not only does NGO status give the ministry established legal recognition, it will enable **Team Timor** members to renew their visas without so much red tape and needing to leave and re-enter the country every time, and it will allow TCM representatives to visit more freely.

BRAZIL ≈ Praise the Lord for a partnership **Joe Campos** has developed with *Multiplication Network Ministries*, an organization that specializes in training churches and individuals in church planting. Twenty Brazilian pastors and leaders attended the initial presentation via Zoom. They plan to begin the 12-module training program at the end of September.

KILGOS ≈ Praise the Lord for enabling their family to be together for son, Robert's wedding! Re-entry to their Southeast Asia field requires 14 days' quarantine in a government-assigned hotel. It's expensive and they can't leave their rooms or go outside the entire time! Pray for their plans to design a 25-lesson video series based on *The Highway of Life* for a Chinese audience. Please pray specifically for the Lord to bring together the right people with the necessary expertise to create a useful, quality production.

KENYA ≈ Praise the Lord for providing funds to start Phase 2 construction on the KGBI residential Bible school, although the rising cost of construction materials means the designated funds won't stretch as far as anticipated. Also pray for a God-honoring resolution to a land ownership dispute over the church and Bible school property in Mombasa.

COVID SURGE ≈ Pray for TCM missionaries and ministries throughout Southeast Asia, particularly **Thailand**, **Myanmar** and **Vietnam**, to survive and thrive despite a devastating new wave of Covid that has overwhelmed health care systems and is eroding local economies. Praise the Lord for technology that keeps members connected for worship, teaching and mutual encouragement. Ask the Lord to give them wisdom and discernment as well as provide for their needs. Former TCM missionary Carlo Paña lost his wife, Elma, to Covid. Pray comfort and healing for him and their son, Charael.
